

CHOLERA RIFE IN LUZON

Twenty-one Deaths In Province of Ilocos Sur.

OUTRAGES BY LADRONES.

They Cruelly Mutilate a Native Officer Who Informed on Them. Philippine Railroad Plans Made Public.

Manila, Nov. 6.—Twenty-two cases of Asiatic cholera occurred in Vigan, the capital of Ilocos Sur, Luzon, last week. Twenty-one deaths are reported.

A party of ladrones captured the teniente (municipal officer) of Buena Vista near Malabon, Cavite. They cut the tendons of his legs and left him on the roadway. This outrage was an act of vengeance because the teniente had given information to the authorities regarding the movements of the ladrones. The Philippine commission has confirmed the anti-slavery law passed by the legislative council of the Moro provinces Oct. 5, prohibiting slave hunting in all the Moro territory and providing for the confiscation of all vessels engaged in the slave traffic.

The volcano of Malaspina, in Negros, is in a state of violent eruption. Malaspina is the loftiest summit of the central mountain chain of the island of Negros, being 8,192 feet high. It has never been entirely quiet.

For Luzon Railways. Governor Taft has made public a report by J. T. Norton, a civil engineer, on the proposed three great lines in the Philippines. One line is proposed from Manila to Aparri, a distance of 336 miles, at a total cost of \$6,075,000; another from Dagupan, the terminal of the present railway from Manila, to Laoga, 168 miles, at a cost of \$3,367,000; and a third south from Manila to Batangas, sixty-nine miles, at a cost of \$1,097,457.

The estimates given are those of Mr. Norton, who considers that native timber is not to be had near any of the lines except a small part of the Manila-Aparri line, and recommends the use of crooked timber from the American Pacific coast. He makes the same recommendation with reference to the use of ties, as he thinks that native hard woods would cost more to cut and that native soft woods are out of the question because of the climate and insects.

Mr. Norton declares that the question of labor is the most important one in connection with the proposed construction. The average native laborer of Luzon, he says, does not take kindly to any sort of work except planting, harvesting rice and fishing, and there is no possibility of building the lines of railway within a reasonable length of time except by the importation of Chinese or other foreign labor. He explains that his estimates are based on the completion of the work within three years after its commencement.

Lamar Assault Case. Freehold, N. J., Nov. 6.—Judge Heisley has set the trial of David Lamar, Bernard Smith, "Monk" Eastman and Joseph Brown for Monday, Nov. 30. They are accused of having been concerned in the assault upon James McMahon, formerly chairman for Lamar. The court granted the application of Prosecutor Foster for a struck jury. All the lawyers who defended the accused men at their trial for conspiracy against McMahon with intent to kill, which resulted in their acquittal, were present in court and made strenuous objection to a struck jury, but were overruled.

Coal Mining in Spain Resumed. Bilbao, Spain, Nov. 5.—Work has been resumed in the coal mining district.

PALE FACES

By Some Thought to Denote Refinement.

"What a mistake!" said Mr. Wells, of the firm of Rickert & Wells, our leading druggists. "In place of refinement pale faces denote disease."

"A bloodless face indicates impoverished blood, pure and simple. "What is the result? A weakened condition of the entire system, the development of humors, disfiguring eruptions and finally a general collapse."

"I wish your paper would tell every pale man, woman and child—that we are so sure that our famous cod liver oil preparation, Vinol (delicious to taste and without oil), will make rich, red blood, create strength and restore them to a normal condition that we will pay for all the Vinol they take if it does not succeed."

"Why are we so sure? Simply because we have seen it succeed so many times that we now don't believe it can fail. You see it contains, in a highly concentrated form, all of the vital principles of cod liver oil without any grease to upset the stomach. We know that it is fresh and actually does contain the fifty odd medicinal curatives taken from fresh cod's livers, and 'tis the real thing,' as the boys say. We do not ask you to take our word for it, but simply try it on your guarantee." Rickert & Wells, Druggists.

A PLEDGE OF PEACE

The Meeting of Nicholas and William at Wiesbaden.

St. Petersburg, Nov. 6.—The meeting of the czar and Emperor William at Wiesbaden, Prussia, is commented on by the newspapers here as being a fresh pledge of the preservation of general peace. The Novosti's remarks attract special attention, as they reiterate the suggestion of an Anglo-Russian rapprochement, which has been recently mooted by some Russian publicists.

The Novosti contests the idea that Russia and Great Britain must remain rivals and says the clearest proof of this is found in Britain's absolutely peaceful policy and the influence she has exercised on Japan in the present Russo-Japanese differences. The paper sees no reason why a more frequent exchange of views, giving more intimate knowledge of each other, should not lead to a similar entente as effected between Britain and France.

Emperor William went to Eggenbach, grand duchy of Hesse, from Wiesbaden and was cordially received at the railroad station by the czar, the Grand Duke of Hesse and Prince Henry of Prussia. Their majesties kissed each other on both cheeks and then drove to Wolfsgarten, where they lunched together, while at the castle of Darmstadt Chancellor von Bulow and Count Lamsdorff, the Russian minister of foreign affairs, had a prolonged talk. One of the subjects discussed was the commercial treaty between Russia and Germany.

Chancellor von Bulow on the train ride from Wiesbaden to Eggenbach gave the emperor an abstract of the news of the day from every part of the world. This must be done daily by some minister.

Burned to Death.

Montpelier, Ind., Nov. 5.—Grover Goss and Harry Eltzsch of Marion were burned to death. Ray Ward of Greenville, O., was fatally burned and Milton Crozier was seriously injured in a fire which destroyed the McDonald livery barn here. Goss and Eltzsch were asleep in the haymow, having brought some horses over from Marion and arrived late in the night. Ward and Crozier shortly before daylight attempted to start a fire in a stove in the livery office and used gasoline by mistake. The explosion surrounded them with flames and set the barn on fire.

Plague in Rio.

Rio Janeiro, Nov. 6.—There have been twenty-nine deaths from the plague and fifty-two cases of the disease during the past week. There are 109 plague cases under treatment.

NEW YORK'S BIG CANAL

Referendum Does Not Make Its Construction Sure.

REPEAL IS STILL POSSIBLE.

Nothing Further Will Be Done Until Meeting of Legislature, Which May Kill Whole Project.

Albany, N. Y., Nov. 6.—Among state officers no indication could be found of any steps likely to be taken in the near future to put into effect the canal enlargement proposition approved by the people at the general election on Tuesday. Indeed, it is positively stated upon high authority that no bonds will be issued or work done before the opening of the legislature in January. After that winter conditions would in any case delay work until next spring.

The official heads of the state government are said to believe that the legislature should again give consideration to the stupendous proposition before the state commits itself to the matter by actual work or expenditure. It is recalled that not a few of those who voted for the bill last winter did so with the stipulation that they were opposed to the proposition, but willing to give the people an opportunity to pass on the question.

Section 4 of article 7 of the state constitution provides that the legislature may at any time repeal a law approved by the people "if no debt shall have been contracted in pursuance thereof and may at any time forbid the contracting of any further debt or liability under such law."

A factor in the attitude of the state officers is the discovery of a seemingly practicable method of electric towage, which it is believed would increase the actual traffic capacity of the canals as much as the enlargement project at a far smaller cost.

The vote of certain counties against the proposition may change some of the former affirmative votes of legislators now re-elected to votes in favor of a repeal of the canal law. In any case, the canal enlargement question will certainly be again a vital issue in the coming legislative session.

YANGIE SAGOUNI'S SLAYER

London Police Sure They Have Solved Armenian Mystery.

London, Nov. 6.—The police have located the place where Gorgie Yangie, the murderer of the two Armenian delegates to the revolutionary convention here, who were assassinated Wednesday afternoon at Peckham Rye, and who committed suicide immediately afterward by shooting, lodged until Oct. 24, and they are satisfied that he was identical with the murderer of Sagat Sagouni, president of the Armenian Revolutionary society in London, who was shot and killed at Peckham Rye Oct. 26.

Yangie's real name has not yet transpired, nor is it known where he lived since Oct. 24, when he left his lodgings after notifying the landlord that he did not want his room any longer. This was two days before the first murder was committed.

All the members of the Hentchakist society are in a state of the greatest alarm. They are satisfied that their enemies, the Alfaisists, or advanced section of the society, will appoint a successor to carry on the work of extermination of the Hentchakist leaders.

Fort Massac a State Park.

Bloomington, Ill., Nov. 6.—Mrs. M. T. Scott of Bloomington, vice president general of the Daughters of the American Revolution and president of the Illinois commission appointed by Governor Yates to purchase historic Fort Massac visited the site near Metropolis, Ill. She was accompanied by the other members of the commission. After an inspection of the site the necessary land was purchased to establish a state park and to perpetuate the famous fort constructed by General George Rogers Clarke.

A Colorado Trust Company Suspends. Pueblo, Colo., Nov. 6.—The Pueblo Title and Trust company of this city, the principal stockholder in which is the Woods Investment company, has announced a voluntary assignment for the protection of its depositors. The reason given is that sufficient cash to meet a run that was considered inevitable after the suspension of the First National bank at Victor could not be raised at once. Secretary Small of the company announces that the deposits are \$250,000 and the assets \$450,000.

Shot a Cornell Student.

Ithaca, N. Y., Nov. 6.—Late Wednesday night Delaney M. King, seventy days old, shot John O. Tracy of Hudson, a sophomore in Cornell university. King used a shotgun and shot Tracy through both arms. The lad is not seriously injured and will recover rapidly. King is a recluse, who, while living a quarter of a mile from the heart of Ithaca, has been in the city but once in twenty years. Tracy and his friends are said to have been removing some fence boards from King's premises when the shooting occurred.

Cut of Lumber.

Falls, Me., Nov. 6.—According to plans of lumber company in the Androscoggin valley tributaries of that river in New Hampshire during season will be 100,000,000 Penobscot and Kennebec cut 30,000,000 feet.

O'BRIEN TO RESIGN.

Irish Nationalist Decides to Give Up Seat in Parliament.

London, Nov. 6.—William O'Brien, Irish Nationalist, has decided to resign his seat in parliament, Cork city, and as a member of the governing body of the United Irish league.

Mr. O'Brien's resignation appears to have been forced by Thomas Sexton, who controls the Freeman's Journal, and by Michael Davitt, whose letter to that paper Oct. 4 indignantly denounced John Redmond for the terms under which the Irish parliamentary leader sold his Wexford estate, under the new land act. "Mr. Redmond's action," wrote Mr. Davitt, "turns the whole land act into a farce."

Other members of the Nationalist party, including John Dillon, have been almost in open revolt against the land act and Mr. Redmond, whom they regard as too moderate. Thanks to the powerful co-operation of Mr. O'Brien, Mr. Redmond has been able to retain the leadership of the party, but with Mr. O'Brien's resignation there is every probability of a far reaching split in the Nationalist ranks.

Mr. O'Brien has long been in poor health, and it required an effort to enable him to make a public appearance or to attend parliament.

Funeral of Professor Mommensen.

Berlin, Nov. 6.—The funeral of Professor Mommensen, the historian, who died at Charlottenburg Sunday, has taken place. A great number of scholars, ambassadors, cabinet ministers and foreign delegates were present. The Crown Prince Frederick William represented the emperor.

President Appoints a Judge.

Washington, Nov. 6.—The president has appointed Daniel Thew Wright of Cincinnati to be justice of the supreme court of the District of Columbia, vice Justice Hagner, resigned. He also re-appointed James A. Gill on the supreme bench of Indian Territory.

Doctors Make Tests of Quinona

Most Difficult Cases of Stomach and Nerve Troubles

Quickly Yield to This Wonderful Preparation.

Marvel at Its Great Health-Giving Properties.

Quinona has created the greatest stir in the medical world. Physicians everywhere, realizing its great possibilities, have been prescribing this preparation with the most wonderful results in the severest cases of stomach and nerve trouble and a general run-down condition of the system. Read what they say of it.

Dr. J. C. Maranda, Woonsocket, R. I., says: "Quinona is a wonderful preparation. It quickly cures extreme nervousness, prevents nervous prostration and soon builds up the run-down system."

Dr. Maynard, Park Street, Hartford, Conn., writes: "Quinona cures nervous dyspepsia and soon puts the stomach to rights."

Dr. J. H. Sanderson, 60 Austin Street, Worcester, Mass., writes: "Have prescribed Quinona in many cases where the patient's health was completely run-down, and find that it soon restores them to perfect health."

Dr. M. Wells, Cranston Street, Providence, R. I., says: "Quinona is the greatest tonic for tired, worn-out people I have ever heard of. I find it quickly increases the appetite, brings restful sleep, builds up the general health and supplies energy."

These are but a few of the personal letters received from well-known physicians, but how emphatically they speak for Quinona's great virtues.

More people are being cured of extreme nervousness and saved from nervous prostration by Quinona than by any other preparation known to medical science.

People who have suffered for years from indigestion, dyspepsia or any stomach trouble whatever, find in Quinona a quick cure.

Elderly people find Quinona as a renewer of good health and vitality. It brings fresh strength, casts off old aches, and makes them feel and look years younger.

There are thousands of people run down in health, not sick enough to consult a doctor, but who feel half miserable the best part of the time. They are nervous, have indifferent appetites, can't sleep, have headaches, constant colds, etc., and instead of trying to help their tired-out systems, console themselves with the thought that tomorrow they may feel better.

QUINONA appeals strongly to this class of people, for it quickly puts one in perfect condition. It is palatable to the most delicate stomach.

Quinona is yet in its infancy, but even at this early date it can safely be predicted that its discovery will mean to the sick and discouraged as much as electricity meant to the business world. We earnestly ask every person broken down in health or suffering from stomach troubles or nervousness to give Quinona the opportunity to prove its great curative powers in their case. All druggists sell Quinona. \$1.00 for large bottle. The Quinona Company, 1 Hartford Street, Boston, Mass.

INDIAN "INSURRECTION."

Pine Ridge Agent Says White Men Were Real Culprits.

Washington, Nov. 6.—The commissioner of Indian affairs has received the following telegram concerning the Indian situation from Agent Brennan of the Pine Ridge agency, dated Nov. 4 at Hot Springs, S. D.:

"A sheriff and posse from Wyoming arrested nine Indians and their families near Edgemont, S. D. They are supposed to be part of the party engaged in the fight Saturday. I tried to have them released pending investigation, but officers insist on taking them to Douglas, Wyo., for hearing. Mob violence threatened. The governor should be telegraphed at once to use all means to protect the Indians now under arrest. The United States attorney should be ordered to Douglas to see justice is done the Indians under arrest. In my opinion the killing of the six Indians reported was totally unjustified."

In accordance with this recommendation, the secretary of the interior has requested the governor of Wyoming to protect the Indians under arrest.

It also has been decided to send Special Agent McNiel to the scene of the recent conflict to make inquiry concerning it.

GENERAL COAL STRIKE

Peabody Gives Up Hope of Being Able to Avert It.

Denver, Nov. 6.—Governor Peabody and Commissioner of Labor Montgomery have practically given up hope of being able to avert a general strike of coal miners in district 15, which includes Colorado, New Mexico, Utah and Wyoming. Mr. Montgomery, speaking of the situation, said:

"If the miners persist in calling a strike unless a conference is arranged by Nov. 9, then I am afraid there will be a strike. We have tried in every way to bring about a conference and have failed."

It is understood that the Colorado Fuel and Iron company and the Victor Fuel company, which employ the greater portion of the men who will be affected by a strike, have unequivocally refused to treat with any persons except their own employees direct.

Notices have been posted at several of the mines ordering the men to quit work on Nov. 9. They are signed by John Mitchell, national president.

STEEL DOWN AGAIN.

New Bottom Record in the Common Stock.

New York, Nov. 6.—New low records were made in the United States Steel shares at the opening of the stock market. The persistent reports of a cut in the price of the company's products, which may be announced in a semi-official way later on, were the main cause of the weakness.

The first transaction in the preferred was 7,000 shares at 57 to 57½, compared with 57½. Later it fell to 56½. The common started at 12½, a loss of ½, and fell as low as 11½. The last previous bottom quotation was 12½. A slight rally followed these declines.

The natural effect on the rest of the list was a gradual sagging in prices. The losses, however, were small.

The Maine Goes to Sea.

Newport, R. I., Nov. 6.—The battleship Maine has put to sea again to resume her target practice, which was interrupted by the fatal accident to Lieutenant Beecher on Tuesday afternoon.

The Weather.

Renegade Indians Captured. Edgemont, S. D., Nov. 6.—The posse which started from here Monday night has captured twenty of the Indians who recently fought to escape arrest. The Indians prepared for a fight, but the Indian policeman with the posse, Carley Black Elk, went to them, and after a talk of two hours the Indians mounted their horses and gave up their guns and asked to be taken to Edgemont. The Indians have arrived in Edgemont and are a sorry looking lot. They say they were attacked three times. One old man lost his fourteen-year-old son and was crying.

Precautions For Czar's Safety.

Wiesbaden, Prussia, Nov. 5.—About 12,000 troops occupied the principal thoroughfares of Wiesbaden while awaiting the arrival of the czar, and some hundreds of police mingled with the rather small crowds behind the military lines. Precautions for the safety of imperial visitors are always, of course, extensive, but on this occasion they seem to be extraordinary. The police forbade householders to stand on their balconies or look out of the windows above the ground floor.

Disastrous Cable Car Collision.

Kansas City, Mo., Nov. 5.—One person was killed and nineteen others injured, four perhaps fatally, in a collision of two cable cars in a fog on the Twelfth street incline near the Union depot. Most of the injured were working girls, clerks in the big retail stores uptown, who were on their way to work from homes in Argentine, Armourdale and Kansas City, Kan., across the river from Kansas City, Mo. The accident was due to slippery tracks.

Bench Warrants For Beavers.

Washington, Nov. 5.—The supreme court of the District of Columbia has issued six "alias" bench warrants for the arrest of George W. Beavers, now in New York, formerly chief of the salary and allowance division of the post office department. The action is based on indictments recently returned against Beavers by the grand jury here in connection with alleged fraudulent contracts for postal supplies.

More Armenian Murders In London.

London, Nov. 5.—An individual said to resemble the murderer of Sagat Sagouni, president of the Armenian Revolutionary society, who was assassinated in the suburb of Nunhead on Oct. 26, shot and mortally wounded two Armenians close to the headquarters of the Hentchakist society at Peckham Rye (a suburb of this city) and then shot himself dead.

Railway Wage Arbitrator's Decision.

New York, Nov. 5.—The decision of the commission in the San Francisco street railway wage arbitration awards an increase of 10 per cent in wages to employees employed for two years prior to April 1, 1903, and of 5 per cent to those of less service. Hours were left unchanged, and the wage rate was deemed effective from May 1, 1903, to May 1, 1904.

Alexieff Returns to Port Arthur.

St. Petersburg, Nov. 5.—A dispatch from Port Arthur announces that Vice-roy Alexieff has returned there from Tallinn, where he went to inspect the Russian fleet.
